Re: Juab County Road Department
Gardner Canyon Road

Dear Mr. Shepherd:

Juab County is aware of the situation concerning the access to a mineral deposit location in the Gardners Canyon Area, Section 21, T12S, R1E, SLB&M. This mineral deposit has, for many years, been actively operated as a mine to extract minerals.

Juab County continually provided maintenance on the access roads to the Gardner Canyon Mine sites under the County "B" Road System. This action was stopped in respect to a U. S. Forest Directive which noted the enforcement of a new Uinta National Forest Boundary.

This U. S. Forest Directive was emphasized personally by members of the Spanish Fork Ranger District, Uinta National Forest, to the Juab County Road Department with instructions to stop any maintenance operations on Gardners Canyon Road beyond the posted Wilderness Area signs. These instructions were received in 1989 and subsequent Juab County operations stopped at that time relative to this road section.
